

PRODUCT PROFILE

AIR FILTER, PANEL (Recirculation Filter)

For Komatsu 830E, 930E and 960E Haul Trucks

Donaldson is pleased to introduce their newest air filter panel P903551 to their extensive range air filtration. Recirculation air filters provide effective filtration for enclosed cabs by lowering dust exposure to the operator.

At Donaldson, we protect our customers' engines and environments by providing filtration solutions for the engine and inside the equipment cabs.

Durable, dependable and built for the long haul, Donaldson air filter panels are constructed to the same quality standards as the original manufacturer's filter.

SPECIFICATIONS

Donaldson Part No: **P903551**
