

PRODUCT PROFILE

POWERCORE FILTER ELEMENTS

For Mitsubishi Fuso & Hino Applications

Donaldson is pleased to introduce a new range of PowerCore® air filter elements to suit Mitsubishi Fuso and Hino 300 Series applications.

When you choose PowerCore Filtration Technology, you gain;

- Straight-through airflow technology invented by Donaldson
- More compact at a given performance level than standard pleated filters
- Improved engine protection; no media movement, expansion, contraction or bunching
- Donaldson reliability - Donaldson has supplied air intake systems to OEMs for over 100 years
- Contaminate encapsulation, dust and dirt stay contained in the filter during servicing
