

SAFETY DATA SHEET

Donaldson Thermo-Tech OAT Heavy-Duty Coolant Premix

SECTION 1: IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name: Donaldson Thermo-Tech OAT Heavy-Duty Coolant Premix

Part Numbers: P903110 - 5L
P903111 - 20L
P903112 - 205L
P903113 - 1,000L

Company: Donaldson Australasia Pty Ltd ABN: 78 000 521 200
Address: 1 Lucca Road, Wyong, NSW, 2259
Phone: 1800 FILTER (345 837) Fax: (02) 4351 2036
Emergency Telephone Number: 0419 885 862 Day, After Hours 1300 131 001

Emergency Telephone Number New Zealand: 0800 764 766

Other Name: Radiator Coolant
Manufacturer's Product Code: 19859
Recommended Use: Radiator Coolant

SECTION 2: HAZARD IDENTIFICATION

Non-hazardous chemical according to classification by Safe Work Australia

Non-dangerous goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail

Precautionary statements:

General

P101 If medical advice is needed, have product container or label at hand
P102 Keep out of reach of children
P103 Read label before use

SECTION 3: COMPOSITION & INFORMATION ON INGREDIENTS

Hazardous Ingredients

| Chemical Entity | CAS Number | Proportion (%) |
|------------------------------------|------------|----------------|
| Non-hazardous corrosion inhibitors | - | <5 |
| Water | 7732-18-5 | Balance |

SECTION 4: FIRST AID MEASURES

FIRST AID TREATMENT

Description of necessary first aid measures

- Inhalation:** Keep victim calm and remove to fresh air if safe to do so. If rapid recovery does not occur, transport to nearest medical facility for additional treatment.
- Skin Contact:** If skin contact occurs, remove contaminated clothing and wash skin thoroughly with water and follow by washing with soap if available. If irritation persists, seek medical attention.
- Eye contact:** If in eyes, hold eyes open, flood with water for at least 15 minutes. If irritation persists, seek medical advice.
- Ingestion:** If swallowed, do NOT induce vomiting. Seek medical advice as precaution.

Symptoms caused by exposure

- Inhalation:** Unlikely to cause any discomfort or irritation in normal use
- Skin:** Unlikely to cause any discomfort or irritation in normal use
- Eye:** May cause mild discomfort
- Ingestion:** May cause mild irritation to gastrointestinal tract

Medical attention and special treatment

Treat symptomatically

SECTION 5: FIRE FIGHTING MEASURES

- Suitable Extinguishing equipment** Foam, water spray or fog. Dry chemical powder, carbon dioxide, sand or earth may be used for small fires only. Do not use water in a jet.
- Specific hazards arising from the chemical** None expected,
- Special protective equipment and precautions for fire fighters** Wear full protective clothing and self-contained breathing apparatus

SECTION 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures: Avoid contact with spilled or released material. Do NOT ingest. Shut off leaks, if possible without personal risks. Isolate hazard area and deny entry to unnecessary or unprotected personnel. Remove all sources of ignition in the surrounding area. Ventilate contaminated area thoroughly.

Environmental precautions: Use appropriate containment to avoid environmental contamination. Prevent from spreading and entering waterways using sand, earth or other appropriate barriers.

Methods and materials for containment and cleaning up:

For small spills (< 1 drum), transfer by mechanical means to a labelled, sealable container for product recovery or safe disposal. Allow any residues to evaporate or use an appropriate absorbent material and dispose of safely. For larger spills (>1 drum), transfer by means such as a vacuum truck to a salvage tank for recovery or disposal. Do not flush residues with water. Retain as contaminated waste. Allow any residues to evaporate or use an appropriate absorbent material and dispose of safely.

SECTION 7: HANDLING AND STORAGE

Precautions for Safe Handling: Avoid breathing vapours. Do NOT ingest. Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Do not eat, drink or smoke in contaminated areas. Handle and open containers with care in a well ventilated area. Ensure that the workplace is well ventilated such that Occupational Exposure limit is not exceeded. Do not empty into drains.

Conditions for safe storage, including and incompatibilities: Store in a cool, well-ventilated area, away from sunlight, ignition and other sources of heat. Do not store near strong oxidisers.

SECTION 8: EXPOSURE CONTROLS PERSONAL PROTECTION

Exposure control measures: None assigned.

Biological monitoring No biological limit allocated

Engineering controls Ensure that adequate ventilation is provided. Avoid generating and inhaling mists and vapours. Keep containers closed when not in use.

Individual protection measures

Eye and face protection: Wear safety goggles

Skin protection: Use solvent resistant gloves, nitrile for longer term protection or PVC and neoprene for incidental splashes.

Respiratory protection: If ventilation inadequate, use appropriate respiratory protection equipment. When using respirators, select an appropriate combination of mask filter. Select a filter for organic gases and vapours (boiling point > 65°C). Respirators should comply with AS1716 or an equivalent approved by a state/territory authority.

Thermal hazards: Not applicable

SECTION 9: IDENTIFICATION

PHYSICAL DESCRIPTION / CHEMICAL PROPERTIES

| | |
|--|--------------------|
| Appearance | Green liquid |
| Odour | None |
| Odour threshold (ppm) | Data not available |
| pH | 7.5 - 9.0 |
| Melting point/freezing point (°C) | 0 (approx.) |
| Initial boiling point and boiling range (°C) | 100 (approx.) |
| Flash point (°C) | Data not available |
| Evaporation rate (Butyl acetate =1) | Data not available |
| Flammability | Not flammable |
| Upper/lower flammability or explosive limits (%) | Data not available |
| Vapour pressure (mmHg @ 20°C) | Data not available |
| Vapour density (air=1) | Data not available |
| Density (g/ml @ 15°C) | 1.01 - 1.02 |
| Solubility | Soluble in water |
| Partition coefficient: n-octanol/water | Data not available |
| Auto-ignition temperature (°C) | Data not available |
| Decomposition temperature (°C) | Data not available |
| Kinematic viscosity (mm ² /s @ 20°C) | Data not available |

SECTION 10: STABILITY AND REACTIVITY

| | |
|---|---------------------------------------|
| Reactivity | Stable under normal conditions of use |
| Chemical Stability | Stable under normal conditions of use |
| Possibility of hazardous reactions | Stable under normal conditions of use |
| Conditions to avoid | None |
| Incompatible materials | Strong oxidising agents |
| Hazardous decomposition products | None |

SECTION 11: TOXICOLOGICAL INFORMATION

| | |
|--|---|
| Acute toxicity | Non-hazardous |
| Skin corrosion/irritation: | May cause skin irritation; prolonged contact may cause dermatitis |
| Serious eye damage/irritation: | May cause eye irritation |
| Respiratory or skin sensitisation: | Not expected to be a sensitiser |
| Germ cell mutagenicity: | No evidence of mutagenic activity |
| Carcinogenicity | Not carcinogenic in animal studies |
| Reproductive toxicity | Not expected to impair fertility |
| Specific target Organ Toxicity (STOT) - single exposure | May cause irritation to the lungs and respiratory system |
| Specific Target Organ Toxicity (STOT) - repeated exposure | Data not available |
| Aspiration hazard | Not considered an aspiration hazard |

SECTION 12: ECOLOGICAL INFORMATION

Ecotoxicity

Acute toxicity:

| | |
|-----------------------------|--------------------|
| Fish | Data not available |
| Aquatic invertebrate | Data not available |
| Algae | Data not available |
| Microorganisms | Data not available |

Chronic toxicity:

| | |
|-----------------------------|--------------------|
| Fish | Data not available |
| Aquatic invertebrate | Data not available |
| Algae | Data not available |
| Microorganisms | Data not available |

Persistence and degradability

Biodegradable

Bioaccumulative potential

Does not bioaccumulate significantly

Mobility in soil

Miscible with water

Other adverse effects

Data not available

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal Methods: Ensure waste disposal conforms to local waste disposal regulations.

SECTION 14: TRANSPORT INFORMATION

| | |
|---|----------------|
| UN Number: | Not applicable |
| Proper shipping name: | Not applicable |
| Australian Dangerous Goods class: | Not applicable |
| Australian Dangerous Goods packing group: | Not applicable |
| Hazchem code: | Not applicable |

SECTION 15: REGULATORY INFORMATION

| | |
|---|----------------|
| Standard for the Uniform Scheduling of Medicines and Poisons (SUSMP), Poisons Schedule: | Not scheduled |
| Australian Inventory of Chemical Substances (AICS): | Listed |
| Dangerous Goods Initial Emergency Response Guide (SAA/SNZ HB76): | Not applicable |

SECTION 16: OTHER INFORMATION

Further information may be obtained by contacting Donaldson Australasia Pty Ltd 1800 FILTER (345 837)

| | |
|---------------------------|----------------------------|
| Date of preparation: | 25/09/2014 |
| Revision number: | 2 |
| Changes in this revision: | Update to GHS SDS standard |

Further information may be obtained by contacting Donaldson Australasia Pty Ltd 1800 FILTER (345 837)

The information sourced for the preparation of this document was correct and complete at the time of writing to the best of the writer's knowledge. The document represents the commitment to the company's responsibilities surrounding the supply of this product, undertaken in good faith. This document should be taken as a safety guide for the product and its recommended uses but is in no way an absolute authority.
