

PRODUCT PROFILE

CRANKCASE BREATHER

For popular IVECO models with Cursor 8, 10, 13 litre engines

Donaldson is pleased to introduce their newest crankcase breather element P903552 to their extensive range of crankcase filtration solutions.

At Donaldson, we protect our customers' engines by cleaning the air going into the engine, all the fluids around and throughout the engine, and the exhaust gases coming out of the engine. In turn, our filtration systems are improving the sustainability of the environments in which they are used.

Durable, dependable and built for the long haul, Donaldson crankcase air filter breathers are constructed to the same quality standards as the original manufacturer's filter.

SPECIFICATIONS

Donaldson Part No: **P903552**

Breather, Air with gasket

Length:	262 mm
Width:	139 mm
Height:	24 mm
IVECO Part:	5001857215 500383040 504153481 504209107

APPLICATIONS

- IVECO Eurotech
- IVECO Powerstar
- IVECO Stralis
